

Dr. Guan-Huei Lee
MBBS, MRCP (UK), FRCP (Edin), Ph.D.

**Senior Consultant and Research Director
Gastroenterology and Hepatology
Medical Director, Liver Transplantation
National University Centre for Organ Transplantation
National University Hospital, Singapore
Assistant Professor, Department of Medicine
Yong Loo Lin School of Medicine, National University of Singapore**

Guan-Huei Lee received his medical degree and Ph.D. from the National University of Singapore and completed his fellowship at the King's College Hospital, London. He is currently a senior consultant of the Division of Gastroenterology & Hepatology in the National University Hospital, Singapore. He serves as the Research Director for the division and holds the appointment of Medical Director, Liver Transplantation at the National University Centre for Organ Transplantation. Guan-Huei is an Assistant Professor at the Yong Loo Lin School of Medicine, National University of Singapore. He is also a Fellow of the Royal College of Physicians of Edinburgh.

Guan-Huei's research centers on the application of innovations in technology and biomedical science to the field of hepatology. His current work focuses on developing novel targets to achieve functional cure of chronic hepatitis B infection, combining nanotechnology and DNA editing technology. His other research interest includes liver failure, liver cancer, fatty liver and chronic hepatitis E infection. He has published multiple peer-reviewed research articles in such top-tier journals as the *Gastroenterology*, *Gut*, and *Molecular & Cellular Biology*. His research work has been presented at the major meetings of such organizations as the APASL, EASL, ILTS, and AASLD. He is a PI and Co-I on more than US\$20million of research grants including an NMRC Translational & Clinical Research (TCR) Flagship Programme Grant and the NMRC Clinician Scientist Award.
