

**Prof. Khin Maung Win**

**M.B.B.S. (Mdy), M. Med.Sc. (Int.Med.), MRCP (UK), FRCP(Edin.)**

Prof. Khin Maung Win was professionally trained by Prof. Neil Finlayson in the Royal Infirmary of Edinburgh, Scotland and Prof. Dame Sheila Sherlock in Liver Unit, Royal Free Hospital of London. He obtained his MRCP in 1984 and FRCP in 1997 respectively. As a specialist in hepatology, he treats patients with various kinds of liver diseases throughout his profession.

He worked in the Government Service until he retired as the Professor and Head of Department of Hepatology, Yangon General Hospital (YGH) in 2007. After his retirement, he established the Yangon GI & Liver Centre, which is well-equipped with the state-of-the-art diagnostic laboratory and initiated his private clinical practices. He devotes his life primarily in patient care and conducts clinical services in many hospitals in Yangon.

Being a leading clinician of Myanmar, he is involved in several multi-centre clinical trials including the current AHCC 06 Trial, entitled Phase III Multi Centre Open-Label Randomized Controlled Trial of Selective Internal Radiation Therapy (SIRT) versus Sorafenib in Locally Advanced Hepatocellular Carcinoma (SIRveNIB).

In addition to providing health care services for patients, he organises numerous CME programmes for undergraduates as well as postgraduates. He successfully organised symposia, International GI and Liver Conferences and the like all over Myanmar. Furthermore, he participated in many local and international scientific meetings as an esteemed faculty and actively presented in them. He is a Founder and Patron of Myanmar Gastroenterology and Liver Society (MGLS) and is a member of Myanmar Academy of Medical Science, Myanmar Medical Association (MMA).

One of his greatest achievements is the successful development of Plasma-derived Hepatitis B vaccine in Myanmar in collaboration with WHO, CDC and New York Blood Center in 1997 with funding from UNDP. Awarded as Honorary Professor, Department of Hepatology, University of Medicine (1), Ministry of Health and Sports, Myanmar.
